Farbod Shahinfar **(PhD Student)** updated: 26-October-2026

Email: farbod.shahinfar@polimi.it Web page: fshahinfar1.github.io
ORCID: 0000-0002-5784-4592 Affiliation: Politecnico di Milano
Research interests: Datacenter applications, End-host systems and their performance

EDUCATION

Ph.D. Information Technology Politecnico di Milano [2023 — Present]
Expected to graduate by Feb. 2027
Supervisor: Prof. Gianni Antichi
Dissertation Title: Enabling Performant Kernel Extensions For Network Applications

M.Sc. Computer Software Engineering Sharif University of Technology [2020 — 2022]

B.Sc. Computer Engineering Iran University of Science and Technology [2016 — 2020]

EXPERIENCES

Visiting Student:
KTH University – Visiting Prof. Marco Chiesa, MINDS Lab [June—November 2025]

Teaching Assistance:
- Network Computing [Politecnico di Milano, Prof. G. Antichi, Graduate level, 2025-2026]

Shadow TPC Experience:
the ACM CoNEXT'25, and the ACM CoNEXT'26.

Artifact Evaluation Committee (AEC):
- ACM/IEEE CGO: 2027
- The Usenix NSDI: 2027
- The ACM CoNEXT: 2026
- The ACM ASPLOS: 2026 [Summer cycle], & 2027

HONORS & AWARDS

- ❖ 3rd place at ACM Student Research Competition[SIGCOMM'25]
- ❖ NEC Student Fellowship
- ❖ Best poster award [CoNEXT'21]
- ❖ First rank student [Iran University of Science and Technology]

PUBLICATION
